8. There Columbus met a group of natives who lived on the (12) _____.
9. He (13) _____ the people there Indians.

5. Read the text and answer the questions

Christopher Columbus's Voyages.

Columbus made some more voyages to the New World. He discovered some more islands in Central America. Spain was very much interested in this land, in this territory and had some Spanish settlements in South and Central America and in the South of North America too. The second great voyage of Christopher Columbus began in September in 1493. He had seventeen ships with him. On this voyage he reached Cuba, but he did not know it was an island. Columbus made four trips in all to the New World but he never landed on the mainland of North America. England became interested in the New World too. The first English settlements appeared in America at the beginning of the seventeenth century. On the 6th September in 1620 a group of people left England for the New World. They sailed from the English city Plymouth, on board the ship the "Mayflower". They wanted to start a new life and to have no problems with the church. After three months' voyage these people landed in the North-east of America. There were 74 men and 28 women on the "Mayflower". They set up a colony and called that part of the country "New England".

- *When did the first settlements appear in America?*
- *Why did Columbus make some more voyages to the New World?*
- *When did the "Mayflower" sail to America?*
- *Why did the people want to leave England for America?*
- *When did they reach America?*
- *Who was on board of the ship?*

(The song about Columbus discovery)

In fourteen hundred ninety-two
Columbus sailed the ocean blue,
It was a courageous thing to do
But someone was already here.
Columbus knew the world was round
So he looked for the East while westward bound,
But he didn't find what he thought he found
And someone was already here.

The Innuite and Cherokee,
The Aztec and Menominee,
The Onadaga and the Cree;
Columbus sailed across the sea,
But someone was already here.

It isn't like it was empty space,
Caribs met him face to face.
Could anyone discover the place
When someone was already here?

The Innuite and Cherokee,
The Aztec and Menominee,

The Onadaga and the Cree;
Columbus sailed across the sea,
But someone was already here.
So tell me, who discover what?
He thought he was in a different spot.
Columbus was lost, the Caribs were not;
They were already here.

Listening answers

1. Columbus read (1) astronomy, (2) geography, and (3) history
2. The spices were (4) greatly desired and difficult to obtain, expensive in Europe.
3. Columbus planned to sail (5) west around the world in order to (6) reach the lands to the East.
